Your new VHX-32F kit includes:

- VHX Display
- Control Box
- (2x) Mounting Brackets
- (4x) Thumb Nuts
- Universal Sender Pack
- CAT5 Cable
- Installation Manuals
- Cutout Template for Custom Applications
- Control Box
- Ford Speed Adapter

**Installation**

1. For Factory dashes; remove the stock gauges from the dash. For custom applications; use the provided template for the appropriate cutout.
2. Place the VHX display in the dash opening and secure using the supplied brackets and thumb screws.

3. Connect the CAT5 cable to the VHX display and carefully route the other end to the control box mounting location.

4. Refer to the main manual for wiring instructions to complete the VHX installation.
