

VHX-69C-NOV

Dakota Digital VHX Instrument Installation
For 1969-76 Nova
1973-75 Buick Apollo
1975-76 Buick Skylark
1973-76 Oldsmobile Omega
1971-76 Pontiac Ventura

Your new VHX-69C-NOV kit includes:

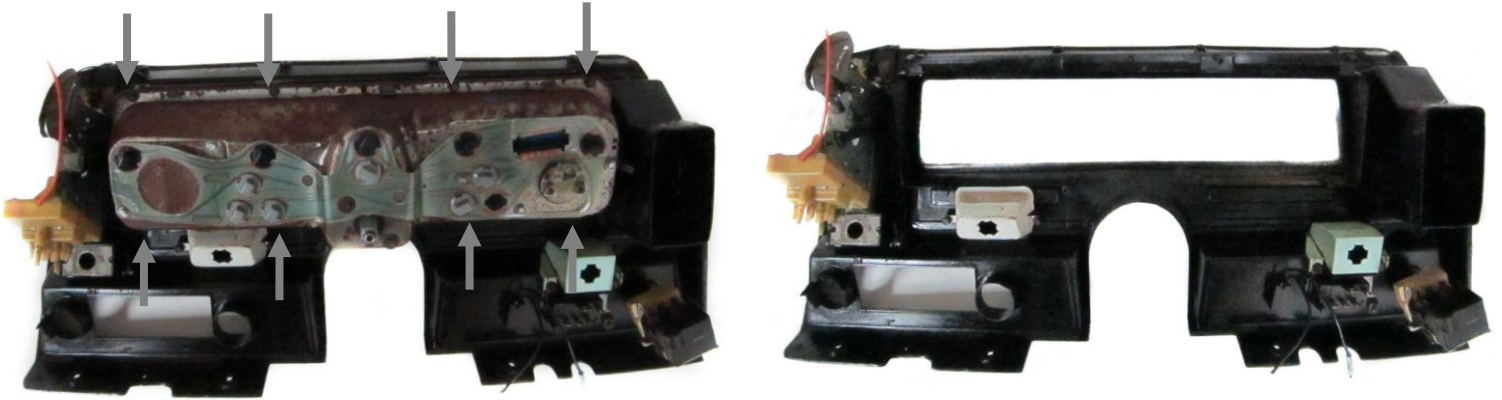

Installation

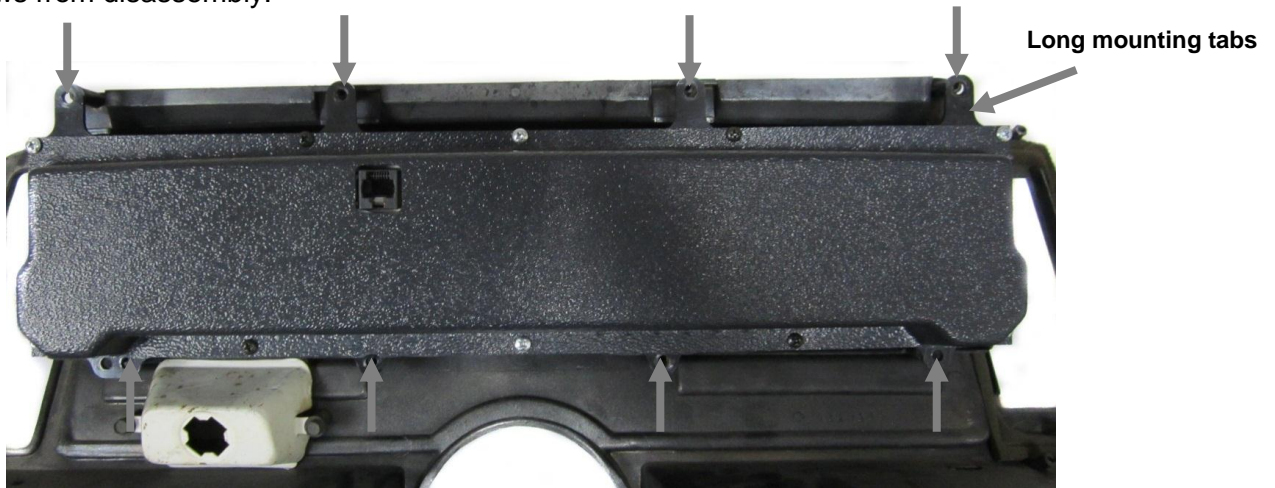

1. Remove the stock gauge bezel and cluster from the dash. Retain all hardware for reassembly

2. Remove the eight (8) screws holding the gauges to the bezel and save the screws for reassembly.

3. With the stock gauges out of the way, place the new VHX gauge assembly in the bezel with the long mounting tabs towards the top. Attach the gauge cluster to the bezel using the stock screws from disassembly.

4. Connect one end of the CAT5 cable to the system as the assembled cluster is installed into the dash, take care when routing this cable to the control box.

5. Re-install the assembled cluster into the vehicle and refer to the main manual for wiring instructions to complete the VHX installation.
