

GRFX-2017

Dakota Digital Universal GRFX Instrument Installation

Your new GRFX-2017 kit includes:

GRFX Instrument Cluster

Universal Sender Pack

Installation Manuals

Main Harness

Control Box

(4x) L-Brackets and Thumb Nuts

Installation

1. Use the provided template to mark out the opening needed to fit the GRFX display. Ensure there is adequate clearance behind the desired mounting location. The display unit needs approximately two inches of depth behind the dash.

Manual # 650817

2. With the appropriate opening cut, place the GRFX display into the dash and attach the four (4) L-brackets to the back of the display using the provided thumb nuts.

**(4x) L-Brackets
and Thumb Nuts**

3. Connect the provided harness from the Display Cable port on the mounted control box location to the back of the GRFX system.

3a. If you plan to install a backup camera to your system, connect the camera to the yellow video plug on the back of the GRFX instrument cluster. Reference the backup camera installation manual to complete the camera installation.

4. Re-install the cluster into the vehicle and refer to the main manual for wiring instructions to complete the GRFX installation.

Note: Configuration of themes, colors and gauges are covered in the main manual.
