

## RTX-65F-PU

Dakota Digital RTX Instrument Installation  
For 1965-'66 Ford Custom Cab Pickups

Your new RTX-65F-PU kit includes:

### RTX Display

### Universal Sender Pack

### Buzzer

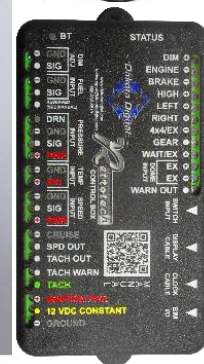

### Installation Manuals

### 36" Main Harness

### Switch Assembly

### Control Box

### Ford Adapter

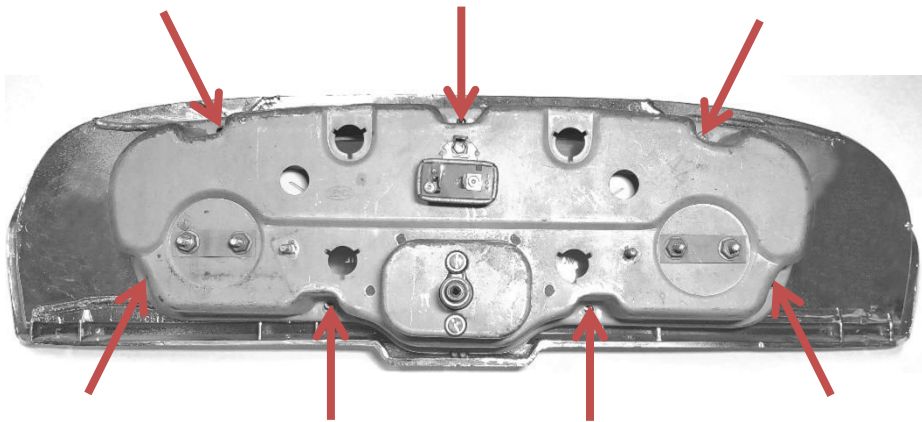

## Installation

1. Remove the stock gauge cluster from the dash and retain the factory hardware for reassembly.

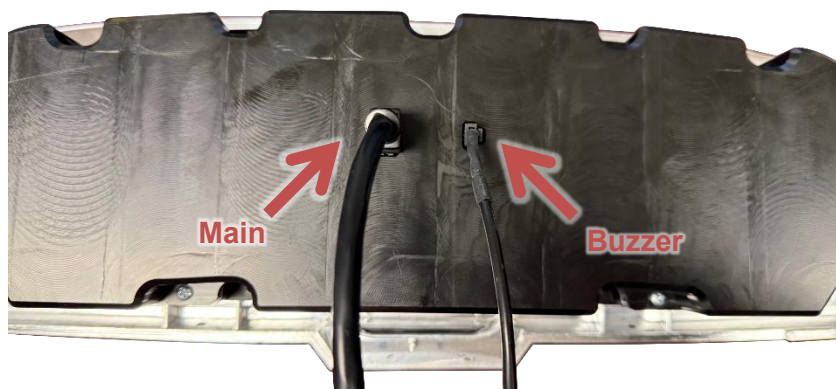

2. Remove the gauge housing from the front bezel by removing four screws on the bottom and three on top. Retain this hardware for reassembly. The bezel and related mounting screws will be the only items reused.

4. Carefully place the RTX display into the factory bezel and fasten using the retained original hardware. Make sure the aluminum spacer sits flush against the edge of the bezel.

5. Connect the 36" **Main Harness** to the back of the RTX system. Carefully route the open end of the harness to the desired control box mounting location. The included **Buzzer** may also be connected for optional audio feedback.

6. Re-install the gauge cluster to the dash using the retained factory hardware and refer to the main manual for wiring instructions to complete the RTX system installation.
